Paint Frame

The Theatre Royal Windsor has a paint frame measuring 32 feet wide with a 21 feet drop. Access to the frame is through the Stage Door or dock doors and access is normally available from 9-00am until 7-00pm. Evening working may also be available on request.

There is a scenic lift giving access to the paint frame from the theatre dock on the floor below and staff for loading in and out scenery can be supplied by prior arrangement and at extra cost. The location of the paint frame in this producing house offers unmatched access to similarly minded professional staff able to assist and advise in all areas of theatre production.

The Theatre Royal Windsor Paint Frame has been used by some of the top scenic artists in the UK and with it's proximity to London it offers an economic and convenient solution for scenic artists in London, its south west environs and Berkshire.

Hire rates can be arranged on daily, weekly or longer periods.

For further information please contact
The Production Manager: Theatre Royal Windsor.
